The Model 6600 nutplate drill is a pneumatic hand tool specially made for precisely drilling & countersinking 2 holes simultaneously for the eventual attachment of nutplate fasteners. The tool uses a pneumatic piston, hydraulic feed control, & an expandable collet to clamp & feed the twin drill spindles through a work piece at a controlled & adjustable speed. The tool can be configured at 6000 or 600 RPM in a wide range of configurations to suit the tool to a variety of nutplate fasteners.

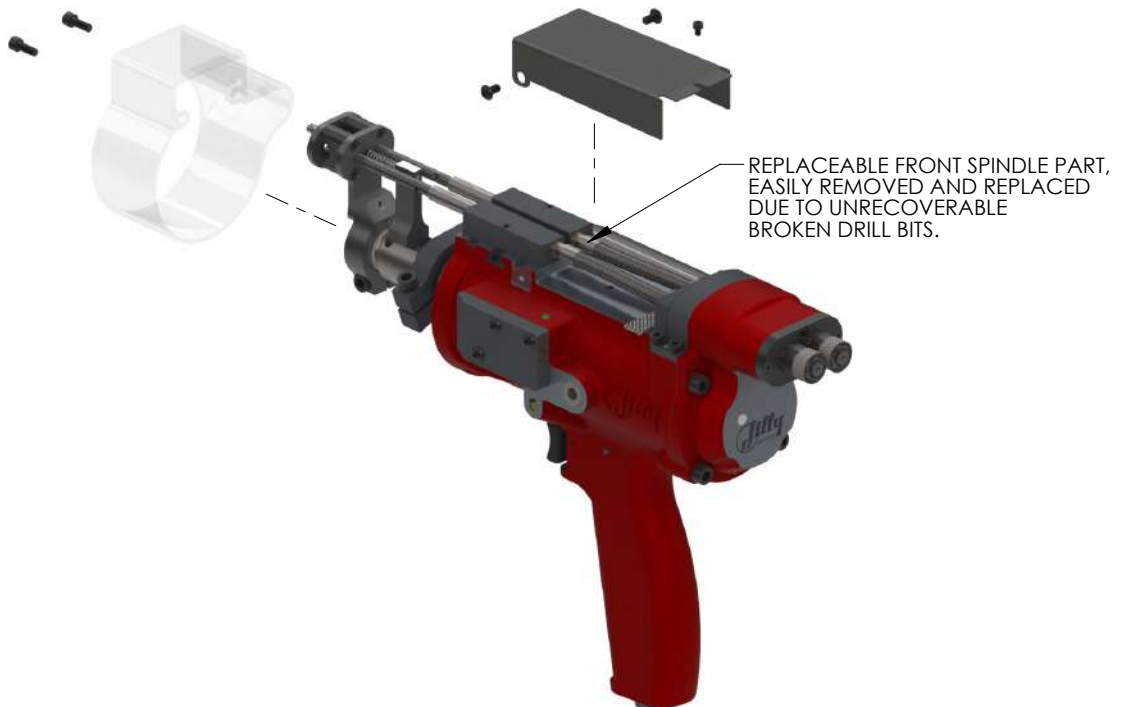

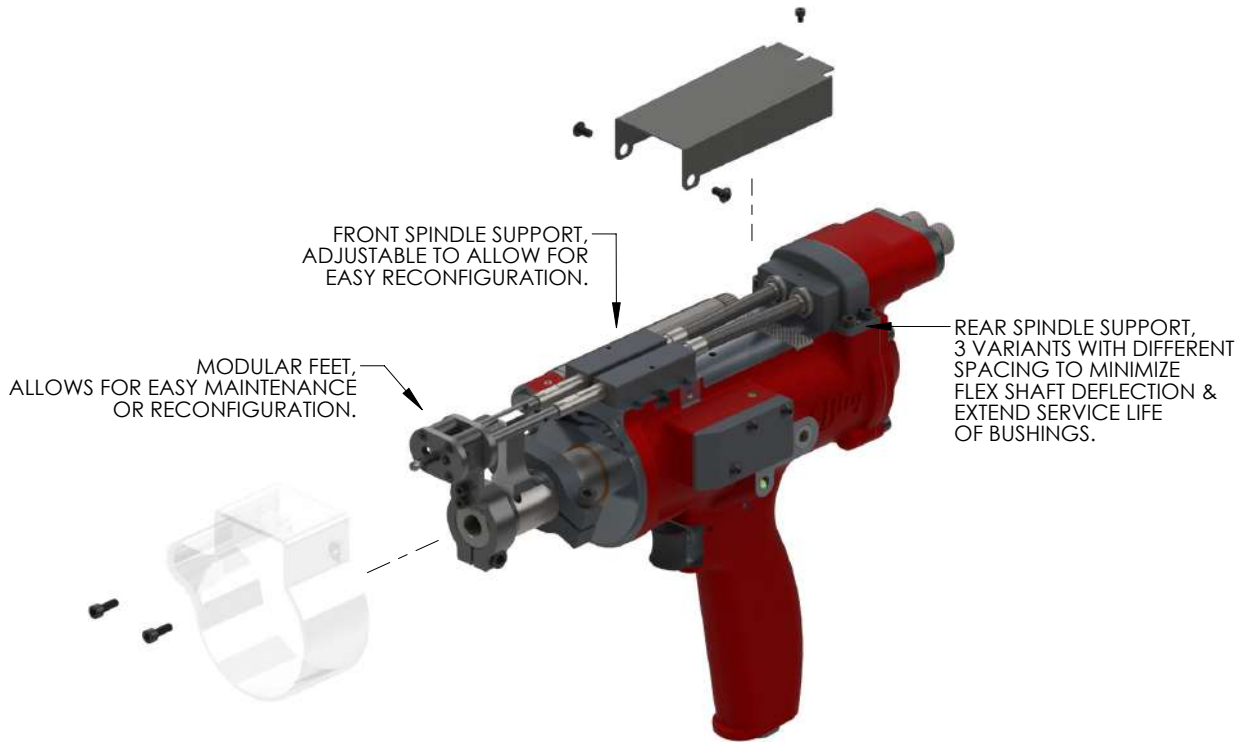

Please see "Model 6600" ordering information page for details on how to order.
